

Cone Markers

Avlite Systems range of airport cone markers are rotationally moulded in UV-stabilised polyethylene, providing exceptionally long-life without the need for painting.

The markers are made in Australia, and available in 2 sizes to comply with CASA MOS Part 139 – Aerodromes, Section 8.2.1.

- Rotationally-moulded polyethylene
- Greater stability and frangible
- Can be easily secured
- UV-stabilised
- Moulded in colour - no need for painting!

Priced from:

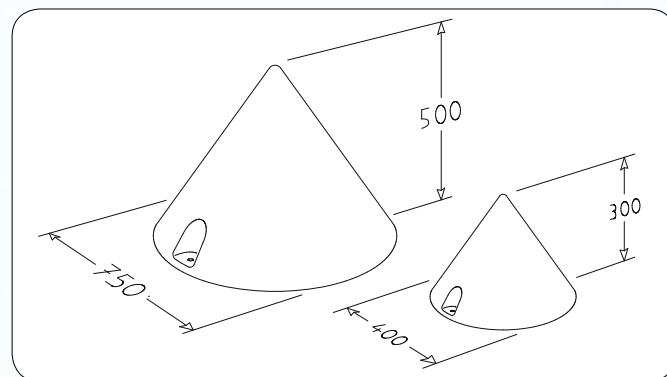

Mini-cone (AV-MC): **A\$28** (ex GST)

Large-cone (AV-LC): **A\$50** (ex GST)

Designed to comply with
CASA MOS, Part 139 -
Aerodromes, Section 8.2.1

Also available: Solar-Powered Airport & Obstruction Lights.
