### **Avlite Systems Approved as “Defence Recognised Supplier”**

***Avlite Systems’ parent company Sealite Pty Ltd has been formally approved as a Defence Recognised Supplier, under the Australian Government’s Defence Recognised Supplier Scheme (DRSS).***

The DRSS is one of the initiatives used by the Commonwealth Government to help Australian defence companies to establish themselves within global supply chains.

The ADO is respected internationally as a high technology organization that utilizes some of the most advanced and innovative products available.

To be eligible for approval as a Defence Recognised Supplier, a company must;

- be deemed to have capabilities and products of strategic importance to the successful delivery of ADF capabilities or general goods used by the ADF;
- has supplied to Defense in the past three years;
- has demonstrated satisfactory supplier relationship with Defence;
- is an Australian company committed to Australian industry; and
- has the potential to export

A company with DRSS status has demonstrated that it is able to deliver products or services that meet the ADO’s stringent standards.

Recognition under the Scheme is also evidence of the Australian Government’s support of a company’s endeavors.

The defence industry forms a major market for Avlite Systems products, with significant contracts supplied over the past years to customers including the Australian Government, US Military, and other defence organisations around the world.

**Defence customers are invited to a complimentary trial of Avlite Systems products. To arrange an evaluation please contact Business Development Manager Mr. Roger Preece on [roger.preece@avlite.com](mailto:roger.preece@avlite.com)**
