

Latest Avlite Systems Solar Aviation Lighting Catalogue – OUT NOW!

Avlite Systems is pleased to announce the release of the latest product catalogue. Featuring the entire range of innovative LED lighting products from the ICAO approved solar runway and taxiway lights, and hazard and obstruction lighting, to the latest in area lighting including windsock lighting kits, Avlite Systems is sure to have a solution for you today.

In particular, the catalogue features Avlite's latest development; **Radio Controlled Solar-Powered Airfield Lighting System**, already in service at remote airfields across Australia. This system enables personnel to remotely activate and set specific characteristics of lights within their airfield, via the wireless handheld controller.

Airports, defence and aid agencies benefit from the flexibility and enormous advantage over traditional fixtures this radio controlled solar-powered system provides.

Avlite Systems is the leading manufacturer of solar LED airfield lights, and is trusted by defence agencies, and regional and commercial airstrips around the world.

For a copy of this latest catalogue, please contact Avlite on +61 (0)3 5977 6128, email info@avlite.com or complete an online "request a catalogue" form available at www.avlite.com.
