Meet Avlite Systems' Representatives at Africa Aerospace & Defence

From 17th to 21st September Avlite Systems will be exhibiting their innovative range of solar aviation lighting products at Africa Aerospace and Defence (AAD 2008), Cape Town, South Africa.

AAD 2008 is the largest aerospace, defence and security exhibition in Africa, with major suppliers and manufacturers from around the world showcasing the latest developments in civil and military, aerospace, defence and security equipment.

Latest products, from the ICAO approved AV70 taxiway light, AVC420 solar runway edge light, and range of Type A obstruction lights will be on display, along with one of Avlite's recent innovations, the radio-controlled solar-powered airfield lighting system.

To arrange a meeting or product demonstration with Avlite representatives during the show, please contact Mr. Roger Preece at roger.preece@avlite.com or phone +61 (0)422 402 802.
