## **Avlite's Medium Intensity Obstruction Light now Certified to FAA L-864, L-865, L-885 & L-866 Standards.**

Somerville, Victoria, Australia December, 2018 – We are pleased to announce Avlite's Medium Intensity Obstruction Light is now Certified to FAA standards and available for immediate supply.

The combined FAA and ICAO Medium Intensity Obstruction Light is designed to comply with FAA L-864, L-865, L-885 & L-866, as well as ICAO MIOL Type A, Type B and Type C requirements for marking a variety of obstacles such as telecommunication towers, wind turbines, buildings and other tall structures.

Advanced optics within the upgraded obstruction light feature multiple high intensity LEDs for efficient operation, and corrosion resistant lens to maximize light intensity and uniformity. Other features include, GPS Synchronization; multiple lights set to the same flash pattern to flash in unison and remote alarm monitoring.

The FAA and ICAO Medium Intensity Obstruction Light is available either as a stand-alone fixture or part of a complete turnkey obstruction lighting solution. All of Avlite's obstruction lights offer a compliant, energy efficient and cost-effective solution for all obstruction marking needs.
